

COLOR FLAKE & QUARTZ SYSTEMS

- Both traditional and fast setting, one day formulations available
- Excellent resistance to chemicals, oils and UV exposure
- High quality, proven products for long term durability

The Color Flake and Quartz Systems offer a decorative yet durable finish designed to resist most chemicals and withstand steady foot traffic. Both systems are used in a variety of residential and commercial applications including showrooms, warehouses, walkways, pool decks, bathrooms, garages and more.

Standard Color Flake sizes are 1/4". Custom colors and sizes are available upon request. With hundreds of solid and pre-blended flake and quartz colors available, the possibilities are endless.

PRODUCTS YOU MAY NEED:

- Epoxy 200 Color/FastFloor® Polyaspartic
- Color Flakes/Quartz Aggregate
- HP Urethane Clear/FastFloor Polyaspartic Topcoat
