## One-Day Polyaspartic Flooring System

1  
One Day\*  
Install

*Heavy-duty wear capability*

*Excellent chemical and heat resistance*

*Rapid return to service, typically in one day\**

*High in solids, low odor and low VOCs*

# FastFloor® Coating System

Standard flake sizes are ¼". Custom colors and sizes are available upon request. With hundreds of solid and pre-blended flake and quartz colors available, the possibilities are endless.

## Standard Quartz Color Chart

## Standard Flake Color Chart

FastFloor® One-Day\* Flooring System is a two-component, polyaspartic coating offering quick return to service and excellent chemical resistance.

Formulated with aliphatic chemistry, FastFloor System is color stable, allowing it to endure UV exposure without color shifts.

FastFloor System bonds to virtually all substrates, including concrete, metals and fiberglass. Its durable and rapid return to service properties make it an ideal floor coating system for airplane hangars, service centers, warehouses and laboratories as well as restaurant floors, hospital floors, and high-traffic entryways and lobby areas.

Properties**	Test	Result
Hardness (Shore)		
- Pencil		2H
- Pendulum	ASTM D-256	160
Tensile Strength (psi)	ASTM D-412	6500
Elongation (%)	ASTM D-412	50
Water Absorption (%)	ASTM D-570	≤0.5
Chemical Resistance		Excellent
7 day immersion in each chemical		No Effect
- Ammonium hydroxide, brake fluid, coolant/anti-freeze, gasoline, skydrol		

\*\*Properties checked on dry films at 5 – 6 mils thick, air dried for 7 days.
