Retail Store, Citrus Fire | Westdeck Concrete Coating, Las Vegas, NV

Concrete Solutions® Metal Fusion is an elegant metallic epoxy system designed to offer a seamless, showroom-like finish for concrete floor and countertop surfaces. Its three-dimensional look gives ordinary concrete extraordinary color and depth.

Colors may be mixed and layered to achieve various unique and exotic visual effects, transforming any floor or countertop into the room's main attraction.

The Metal Fusion System offers excellent chemical and wear resistance, and is an attractive choice for high-traffic interior spaces. From salons and retail shops to living rooms and kitchens, Metal Fusion System's vibrant colors, metallic luster and glass-like finish make it the ideal resurfacing solution for commercial and residential spaces.

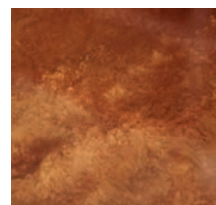

PRODUCTS YOU MAY NEED:

- Metal Fusion Metallic Epoxy
- HP Urethane Clear
- Epoxy 200 Primer
