

Rhino Moisture Scavenger, Part # 50110

**DESCRIPTION:**

Rhino Moisture Scavenger is specifically designed to help eliminate any possible moisture contamination of Rhino Linings® resin products. When you observe foaming during hand mixing or spray application, it is a good indication that the resin drum is contaminated with water. To help prevent any further deterioration of the resin chemistry, the use of Rhino Moisture Scavenger is recommended to help eliminate the foaming of the finished product.

**TYPICAL USES:**

Removal of water from contaminated resin. For a 10 gallon (100 lbs) QC tank, you can use up to 2.5 lbs Moisture Scavenger to absorb the contamination.

**FEATURES & BENEFITS:**

Rejuvenates a drum of resin contaminated by water.

**INSTRUCTIONS:**

Add the Rhino Moisture Scavenger to the contaminated resin and mix for 30 minutes for proper dispersion. Allow container to sit for 1 hour to let Rhino Moisture Scavenger work before spraying. Circulate hoses to drums to insure lines are filled with new material and then do a test spray.

**HOW SUPPLIED:**

Rhino Moisture Scavenger is available in 1 gallon cans.

**SAFETY PRECAUTIONS: Health Considerations: Consult the Rhino Linings® Safety Data Sheets (SDS)**

This chemical system requires the use of proper safety equipment and procedures. Please follow the Rhino Linings® product SDS and Safety Manual for detailed information and handling guidelines.

**For Your Protection:** The information and recommendations in this publication are, to the best of our knowledge, reliable. Suggestions made concerning the products and their uses, applications, storage and handling are only the opinion of Rhino Linings Corporation. Users should conduct their own tests to determine the suitability of these products for their own particular purposes and of the storage and handling methods herein suggested. The toxicity and risk characteristics of products made by Rhino Linings Corporation will necessarily differ from the toxicity and risk characteristics developed when such products are used with other materials during a manufacturing process. The resulting risk characteristics should be determined and made known to ultimate end-users and processors.

Because of numerous factors affecting results, **Rhino Linings Corporation makes no warranty of any kind, express or implied**, other than that the material conforms to its applicable current Standard Specifications. Rhino Linings Corporation hereby disclaims any and all other warranties, including but not limited to those of merchantability or fitness for a particular purpose. No statements made herein may be construed as a representation or warranty. The liability of Rhino Linings Corporation for any claims arising from or sounding in breach of warranty, negligence, strict liability, or otherwise shall be limited to the purchase price of the material.
